Applicable standards for plug-in timers	Plug-in timer	ETF 4	2019 CTL Plenary Meeting
Question			
<p>What would be the appropriate standards for certifying a plug-in timer with socket outlet as shown on the following photos?</p> <div style="text-align: center;">  </div>			
Decision			
<p>The main standard for plug-in timers is IEC 60730-2-7. In case of issuing of a CB Test Certificate for plug-in timers, IEC 60730-2-7 shall be stated in the CB Test Certificate. Additionally, an evaluation of the plug and the socket-outlet according to IEC 60884-1 and IEC 60884-2-5 is required. The evaluation according to IEC 60884-1 and IEC 60884-2-5 shall be part of the CB Test Report.</p>
